ABOUT US

Leading BMS, ELV & Control Cable Dealers in Dubai, UAE

Razi Con Building and Construction Materials Trading LLC, located in Dubai, United Arab Emirates, was established with a clear mission – to become a leading supplier of specialized cables, including BMS cables, control cables, ELV cables, and more. We are dedicated to the seamless procurement, stocking, and global distribution of these essential materials across the UAE and international markets.

With over two decades of industry experience, Razi Con has built a strong reputation for reliability and expertise. As authorized stockists of several esteemed brands, we proudly represent some of the world's leading manufacturers, ensuring local stock availability and fast delivery. Our diverse product range enables us to meet the varying requirements of building and construction projects across multiple applications.

At Razi Con, we understand the importance of experience, excellent customer service, and strong supplier relationships. We firmly believe that this combination is key to effectively achieving our goal of becoming a leading global supplier in the building and construction materials sector.

Choose Razi Con for a comprehensive range of cables and construction materials, supported by decades of experience, exceptional service, and a commitment to meeting the unique demands of every project.

MISSION

"Empowering construction with excellence and innovation, Razi Con is committed to becoming a global leader in specialized building materials, delivering high-quality cable solutions, ensuring customer satisfaction, and supporting a sustainable future."

VISION

"Razi Con envisions a future where construction excellence meets sustainability, redefining industry standards and driving global progress in building materials and cable solutions."

OBJECTIVES

"Razi Con's objectives are to lead the global market in supplying advanced construction materials and high-quality cable solutions, exceed customer expectations, promote sustainable practices, expand internationally, and achieve consistent growth through innovation and excellence."
